

Amsoil EAOM103 -or- EAOM103C (chrome)
 Bosch (3300) (3330) (3323)
 Mobil One..... M108
 BOSCH.....3300 3323
 K&N.....KN-303
 NAPA GOLD.....1358
 PUROLATOR.....ML16817
 STP.....SDF13
 WIX.....51358
 FRAM.....6017A
 HASTINGS.....LF-113
 HI FLO.....HF-303
 EMGO.....10-82220
 PER-FORM.....J-503
 Super Tech.....ST6607 -or- ST7317 (Wal-Mart)

The Wal-Mart ST 6607 is a little smaller than the stock filter and the 7317 is maybe a half inch longer. Both will work fine, your preference.

Oil Drain Crush Washers: The thread diameter is 14mm; the wrench size is 17mm, so you would need a washer with a 14mm inside diameter.

Purchase a couple of “magnetic drain plugs” at your local auto parts store. You need the 14 MM with a 1.5 MM thread pitch... Now you will also have more room for the wrench on your crankcase plug as most of the aftermarket plugs take a 14 MM wrench and it’s much easier to access!
